OUR CONTRIBUTION

FROM THE REGION

Most of our products are produced and packed in Germany.

RITTER SPORT OUR COCOA

Since 2018 Ritter Sport only uses certified and sustainable cocoa. One part comes from their own plantation and others from direct purchases of partners and cooperation.

Tony's Chocolonely chocolate is Fairtrade certified and guarantees 100% slave-free chocolate with its own Tony's Open Chain logo.

We have offset unavoidable CO2 emissions of **3,500,000 kg to protect our environment through four certified climate protection projects**. That's roughly 33,000 flights from Berlin to Munich! More about our offset can be found on our ClimatePartner project page...

WE ♥ BEES

With our sponsorship for a bee hive, we contribute to the preservation of bio diversity. We also help the creation, cultivation and maintenance of large meadows for bees, grassland and meadow orchards

The organic seal guarantees standards for organic farming. A product marked with the organic seal, requires 95% of its ingredients to originate from ecological cultivation.

UTZ CERTIFIED

The UTZ seal on a product means the raw materials come from sustainable resources, cocoa for example. All farmers must show sustainable farming, have fair working conditions and no child labour.

OUR FAIRTRADE LOGO AT A GLANCE

If the product is a mixed product (e.g. cookies, chocolate), the Fairtrade product seal is also marked with an arrow that refers to further information on the reverse side. In the case of mixed products with this seal, all ingredients that are available under Fairtrade conditions must be Fairtrade certified. Products produced with volume compensation are also marked with the arrow next to the seal. This is possible for cocoa, sugar, fruit juice and tea.

Only the ingredient specified in the logo in the mixed product is Fairtrade certified - for example, the amount of cocoa required for a chocolate bar was purchased under Fairtrade conditions.

RENEWABLE ENERGIES

The electricity we require for our production facilities is partially generated by our own photovoltaic power plant. Furthermore we provide district heating from renewable resources.

Reconcilability of family and working life.

LINDT & SPRÜNGLI FARMING PROGRAM

Lindt follows its own reception model for cocoa beans, which allows complete retraceability. Their own Farming Program supports local farmers to lead their plantations ecologically, socially and economically, to increase income and harvest.

We set the possibility for people with disabilities to be part of the working life. For many years, we have been cooperating with a sheltered workshop.

Forest Stewardship Council®

In the German-speaking region, the most established name for responsible forest management is the Forest Stewardship Council® – commonly known as FSC®. It's an international, non-profit organization with the global goal, to make ecological and socially responsible forest management visible on products, by the help of their seal. Most of the paper products in this catalog are FSC®-certified. Look for our FSC®-certified products.

CALENDAR

with Lindt Advent Calendar Naps ECO

Annual calendar and Advent calendar in one mailing is an advantage in many ways. A practical annual calendar made from FSC®-certified paper, with an Advent calendar integrated into the design. The Advent calendar in DIN A5 format is filled with high-quality Lindt chocolate. After use, the Advent calendar can be easily detached from the annual calendar. Both calendars can be individually decorated over the entire surface, but calendar pages are standard.

Delicious as chocolate - sustainable as never before

*Poore, J., & Nemecek, T. (2018)

Incredible but true: the world's first chocolate alternative made entirely without cocoa beans. Instead of cocoa from the tropics, oats and sunflower seeds from our latitudes are used.

The delicately melting alternative is made from 100% natural ingredients, free from flavor enhancers and preservatives.

The positive environmental effects are impressive:*

- over 90% savings in water and CO2 compared to conventional chocolate
- Avoidance of deforestation, and through this preserving habitats and biodiversity

CHOVIVA HOT SPOON

NEW

The world's first chocolate alternative made entirely without cocoa beans. With the creamy alternative made from oats, over 90% of water and CO2 is saved compared to conventional chocolate. To prepare the perfect cup of ChoViva Hot Spoon, add about 150ml of hot milk or plant-based drink to a cup and place the wooden spoon inside. The individually printable advertising tag placed on top is made from FSC®-certified cardboard.

RIESLING
in elegant gift box

Once the centre of political events in Europe in the late 16th century, Friedelsheim Palace was one of the most important Renaissance castles. Today, grapes are harvested in the castle's former pleasure garden to make Riesling.

The wine is yellow fruity, yet crisp and fresh with a high degree of drinkability.

The wine is delivered in an elegant black gift box, decorated with a graceful ribbon and a high quality card, creating a special moment for your recipient.

In the language of the New Zealand Maori, 'Kaitui' translates to 'tailor.' The name not only aligns with the vineyard's identity, but also stylistically recalls the popular wines from New Zealand. The grapes for the 'Kaitui Sauvignon Blanc' thrive on limestone soils at elevations exceeding 200 meters. The result is a white wine with vibrant freshness and the typical, intense fruit flavors of gooseberries, passion fruit, and grapefruit. The wine is delivered in an elegant black gift box, decorated with a graceful ribbon and a high-quality card, creating a special moment for your recipient.

Method of Printing:

We work with the following methods of printing:
Flexo printing (flexible materials)
Pad printing (tins)
Offset printing
Digital printing

In the above mentioned printing methods positioning deviations may occur due to technical reasons.

With flexo printing positioning deviations may occur in the motif up to 0,5 mm.

Format of files:

Preferably: Adobe Illustrator (CC), Adobe Photoshop (CC) or Adobe InDesign (CC).

Also possible: Macromedia Freehand MX, Adobe Acrobat, CorelDraw (11), QuarkXPress (8).

Resolution / Fonts:

Required resolution for motifs: minimum 300 dpi
Required resolution for non-screen and screen motifs: 1200 dpi
Please provide vectorized files.

Lettrypes: if not vectorized please provide the corresponding lettertype format file.

Colours:

We work partly with translucent colours. These translucent colours may not cover the surface below completely and a white under layer is often necessary to obtain the required colour.

Please let us know the exact colour required. We work with HKS and Pantone colours. We do not work with RAL colours. We can approximate RAL colours (according to Pantone or HKS colours). Letterheads, business cards and brochures can be used as colour artwork. The print result may vary according to the material used. We will try to match colours, but do not take responsibility for the result obtained if detailed HKS or Pantone colours are not provided. Variations in the nuances of the Pantone and HKS colours are no grounds for a claim.

Each motif and each product will be handled individually. It is not possible to assume all eventualities in written form. Here and in the technical data sheets is written basic information only, for which we cannot take full responsibility. We are happy to advise about the product and the motif. It is not possible to advise without the print motif, therefore the print motif is required before any offer advice is offered.

No film or artwork is to be prepared with a raster motif without prior consultation.

A copy of the motif as colour artwork is required when data is sent digitally. The colours have to be colour binding. Printing is not possible without paper artwork or colour binding artwork.

Regulations for food tracing:

Since December 13, 2014 the rules of EU-regulation 1169/2011 concerning the Food Information Regulation (LMIV) have to be observed. This regulation includes the ingredients list, the labeling of allergens, the product name (within the visual area), the net quantity (within the visual area), the best before date as well as the full name and address of the distributor. All legal requirements have to be printed clearly and readably with a minimum font size of 1,2 mm related to the letter „x“. As soon as the maximum surface area of the packaging is less than 80 cm², the minimum font size is 0,9 mm. Concerning smallest packaging - that is less than 10 cm² for the maximum surface area - only the most important legal requirements (such as the product name, the net quantity, the best before date) have to be mentioned - however in the font size of 0,9 mm related to the small x.

Delivery quantity variations:

Variations in the quantity delivery of up to 10% may occur. This is unavoidable.

Perishable foods:

Perishable foods are non returnable. Please inspect the merchandise upon receipt and inform us immediately or within 24 hours if there is a problem.

Subsequent claims cannot be accepted. As soon as the goods leave our premises, they are no longer our responsibility. Neither qualitative nor legal responsibility can be taken concerning the food.

Damage or Loss:

Damage due to transit and delivery are to be noted on the consignment note upon receipt of the goods and are to be confirmed and signed by the carrier. Pallet damages which have not been noted on the consignment note cannot be considered as shipping damages. Attention should be made upon delivery of the packaging. Irregularities are to be noted and photographed immediately.

Delivery time:

The date/week of dispatch is considered as the delivery date or delivery week, this is not to be confused with the date/week of arrival.

An arrival date/week cannot be confirmed and is therefore not binding. Once the goods have been handed to our forwarding agent, the transit time required by our forwarding agent is not our responsibility. A forwarding agent may be stipulated by yourselves. A fixed delivery date can not be confirmed, however, in the case of a fixed delivery date we hold no responsibility for the forwarding agent.

This will depend upon the date of printing approval from yourselves and not upon receipt of artwork. We will not print without any printing approval. No delivery time will be confirmed without any printing approval. Any corrections made must be corrected by our appointed graphic designer. A new copy of the corrections will be sent to you for acceptance and must receive a final approval before printing commences.

Corrections:

Please read through the corrections thoroughly. If you cannot recognise a part of the copy please contact us. Once the text has been approved for printing we are not responsible for errors overlooked by yourselves. Approval for printing is a mandatory part of an order.

All preparatory work and order-related raw materials that have been carried out or purchased by us up to the time of approval will be invoiced after any order cancellation.

Colours variations for reprints may occur due to technical grounds and are unavoidable. Variations in the nuances of the Pantone and HKS colours will not be recognised as part of a claim.

Two corrections may be made at no extra cost. In the case of a third or more correction we have the right to charge a fixed amount. We recommend you contact us before the production of the print files. Therefore unnecessary costs will be avoided.

Assistance can be offered throughout layout proposals. An offer concerning these costs will be made after the calculation of expenditure.

An original print samples is possible, this will be charged according to the motif. However, a print sample will delay delivery time.

Claims:

Claims have to be proved. A minimum amount of 10% of the entire quantity of an order must be affected and returned in the original packaging. In the case of a print claim, 10% of the entire quantity of an order must also be affected and returned in the original packaging.

Claims concerning the flavour and the constitution of the foods will only be accepted if the goods have been kept and stored correctly. Please contact us concerning the latest date of consumption and other important facts.

It should be noted for example that foods such as chocolate should be stored at room temperature and jellies are sensitive to heat and humidity.

Our products are either packed according to weight or are counted. The quantity variation per carton depends on the machine and the products. The final quantity is controlled. In case of irregularities per carton, please check the final quantity supplied.

We will be happy to advise you regarding the products, artwork requirement, digital files, Terms and Conditions of Sales and any further enquiries you may have.

We ask for your patience if a slight delay occurs in response to your enquiries. We believe it is important to have time for all our customers and to satisfy their wishes and requirements.

For mutual security and in order to avoid misunderstanding, you should request from us written confirmation regarding agreed conditions, delivery time, technical guidelines etc. Further information regarding each product can be found in the technical data sheet in this catalogue. If you have any further questions about the technical data sheet, please do not hesitate to contact us. These sheets are available separately for each product. Please do not hesitate to request our technical data sheet or to download this information from our website.

We wish you success with your sweet advertising ideas.

Our General Terms and Conditions of Business apply to the Important Points to Note.

We cannot be held responsible for any error or misunderstanding in the Price List.
